

Friday, June 29th 2012

To The CASEY Director,

We, Wenceslao & Cibeles Gonzalez are writing this letter to request that during the following two visits with our sons (July 5th and July 19th) a replacement that is not DCYF worker Heather Fogg be put to supervise our visit.

We were notified by Mr. Steve Henry on June 21st after our visit that he would not be present during the following two visits, and that the DCYF social worker Heather Fogg would be substituting for him.

Given the fact that due to a petition filed by Heather Fogg the kangaroo court which DCYF controls said on June 20th 2012 that the parental rights of the mother of the boys (Cibeles) were terminated (without any due process), and that by July 18th she would be receiving the “papers” which stated this incomprehensible yet illegal occurrence, we ask that Heather Fogg not be present during the July 5th and 19th visits, as the differences between us and her are so irreconcilable that her very presence would greatly diminish the quality time of our visits.

We frankly cannot stand her presence, and given the fact that there might be an attempt to prevent one of us (the mother of the boys) from seeing her children by the sinisterly designated date, the need to have a nice comfortable visit with our sons is all the more greater.

We have our differences as well with the regular supervisor Mr. Steve Henry, as we have noticed his intense partiality towards Ana, but we can nevertheless be on more civil terms with him, because due to he being a latecomer when it came to getting involved in our absurd case, we can at least be willing to partly excuse his unfounded partiality as the result of him having been deceived and grossly misinformed.

However, in the case of the worker Heather Fogg, she has been intensely involved in the systematic oppression of our family, as well as the gradual yet illegal dismantling of our parental and civil rights since 2009. She has been a major player in all the harm done to our family, and her malice and inhumanity has manifested itself on too many an occasion. She also is very much in league with Ana, who is abusing our children behind closed doors. We do not want the possible last visits that the mother might have with her sons to be marred by this woman who has done so much harm to our family and who has unscrupulously furthered Ana's vindictive goals.

We know that it is not obligatory for this DCYF worker to cover for Mr. Henry, and that it would be far easier for a CASEY worker (who is already working in the building anyhow) to cover for the regular visit supervisor.

We hope that at least our wishes with regard to Mr. Henry's substitute be respected, as no respect has been shown to us throughout the duration of this nightmarish affair and our dignity has been consistently trampled on.

Sincerely,

Wenceslao Gonzalez Jr.

Cibeles Jolivette Gonzalez
